The Secretary to the Hon'ble the Resident.

Confidential letter no Pol 47/40 dated 26th November 1940 regarding the proposed establishment of an aircraft factory in Bangalore

The Residency state that information has been received from the Government of India that the proposed aircraft factory will be established not in the C & M Station but in Mysore. They therefore want to be informed whether the Mysore ? Govt can declare the factory area to be a protected area under the State counterpart of the Defence of India Rules. Definite information as to the size of the factory or the number of men require to guard it is lacking and an estimate is given of about 180 men on the analogy of the munition factory at Aravankadu.

2) Regarding the declaration of the area to be a "protected area", it is submitted that the Defence of India Rules have been applied to Mysore mutatis mutandis and subject to any amendments to which the said Rules are for the time being subject in British India. Under rule 8 of these rules as applied to Mysore, if the Government consider it necessary or expedient to regulate the entry of persons into any area, it may, without prejudice to the provisions of any other rule, by notified order declare that area to be a "protected area".

3) The number of men necessary to protect the area would depend on the area concerned. Secondly it would increase as the construction ~~increases~~ Progresses and the 180 men would perhaps be necessary only after the completion of

the factory. The probable cost for the 180 men would be roughly about Rs.48,000 per annum.

SIR,

I am directed to refer to the discussions held on July 12th, 1940 regarding the proposed establishment of an aircraft factory in Bangalore, copy of an account of which was sent to the Dewan by the Hon'ble the Resident under his demi-official letter No.Pol. 4740, dated the 15th July 1940.

2. Information has now been received from the Government of India that Mr.Walchand Hirachand has intimated them a proposal to establish an aircraft factory, not in the Civil and Military Station, Bangalore as originally intended, but somewhere in the Mysore State. In this connection the Defence Department have enquired whether such a factory area in the State could be declared a "protected area" under the State's version of the Defence of India Rules and adequately guarded as such by the Mysore State Troops or Police. In the absence of definite information regarding the size of the factory it is difficult to assess the number of men who would be involved in protecting it but it is considered that any number up to 180 men which is the size of the "Garrison Company" at Aravankadu might be necessary. A very urgent reply would be appreciated as the Government of India require an answer by telegram.
